Missouri Weekly Hay Summary 03/26/2020

The transitions of seasons never fails to surprise those of us in Missouri. In the past week, the state has seen everything from a short lived heavy snowfall, thunderstorms and flash flooding, and beautiful blue sky sunny days in the 70's. Grass is enjoying the moisture and overall warmer temperatures and growing well. Many cattle farmers, especially in the south, are getting very near to turning out as most cattle aren't caring much for hay anymore. The continued rains every few days has made it near impossible to fertilize pastures and hayfields, and that is becoming concerning. Field work for any spring planting has been at a standstill since the first weekend of the month when there was a short window and several got some anhydrous down. The supply of hay is moderate, demand is light, and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or to view the directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales.

Supreme quality Alfalfa (RFV <185) 180.00-200.00
small squares 7.00-9.00 per bale
Premium quality Alfalfa (RFV 170-180) 160.00-180.00
Good quality Alfalfa (RFV 150-170) 120.00-160.00
